

## Concrete Hoppers

Concrete Hoppers - The self-dumping hopper accessory can automatically trigger to both unload and release whenever the bumper release touches the side of a dumpster. When dumping is completed, the hopper can return to original locked and upright position. This particular piece of equipment even comes together with a cable which allows operation from the seat of the lift truck to be able to have the option of manually unloading the hopper. There is a locking chain provided in order to lock the hopper to the fork truck. This product is constructed with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper likewise has a blue powder coat finish to maintain durability.
