

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of every global trade. Transporting industrial goods takes place each day on our industrious world. First innovated as industrial vehicles during the 1930s in the United States of America, lift trucks gained popularity after World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machinery spread globally.

In 1949, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Now the company is simply known as TCM Corporation. Over the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the business. TCM began constructing forklift manufacturing locations outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

With more than fifty years of accumulated technology and expertise, TCM has been proudly manufacturing numerous models of industrial lift trucks, making their models recognizable all around the globe. With a strong and energetic workers, TCM has been able to constantly work towards becoming a future leading material handling business.
