

Meritor Parts

Meritor Part - Meritor is a leading international supplier which is proudly founded on a 100 year custom of service and quality. They focus on various modules, integrated systems and components to original equipment makers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and believes that this energy contributes to their competitive advantage within the global operations. The business values all their customers and wishes to ensure their success while anticipating their diverse requirements. Meritor begins with a culture which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than 11,200 people, Meritor promotes collaboration and innovation amongst a team of knowledgeable experts.

Meritor strongly believes in only hiring future focused staff. These top-caliber workers could quickly get used to to changing environments and freely demonstrate the level of commitment and performance needed to be able to get results for the competitive market environment. The company empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers their workers different chances for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering which include axles, drivelines, braking and suspension systems for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is also responsible for supporting the needs of all their global engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group which is committed to ensuring optimum progress at their aftermarket distribution facilities and production plant that are located on 5 continents and in 19 countries.

The supplier development network is particularly located to be able to support new business growth. Regional teams are supported by worldwide initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who make use of Six Sigma tools to business processes and apply lean techniques.
