

Ingersoll Rand Forklift Parts

Ingersoll Rand Forklift Parts - Offering solutions, services and products to be able to ensure efficiency and to increase the productivity in industrial, commercial and residential environments, Ingersoll Rand is very proud provider of products that help enhance the comfort, security, health and safety of individuals all across the globe.

From their Climate Solutions division comes a product line of energy efficient HVACR solutions. The Thermo King is the leading transport temperature control, while Hussman manufactures refrigeration and food merchandising solutions. Trane is a trusted provider of energy efficient air conditioning and heating ventilation systems, contracting and building services, parts support and advanced controls used for both residential homes and commercial buildings.

The Industrial Technologies sector of Ingersoll Rand offers products and solutions to improve productivity, operations and energy efficiency for their clients. The range of products in their line include: tools and pumps, and material fluid handling systems to complete compressed air systems. They have also developed Club Car, the global leader in golf and utility vehicles meant for businesses and people.

Well-known trade names such as Schlage and Trane compromise the Residential Solutions business, providing comfort, safety and efficiency to home owners all across North America. Some of their innovative quality products consist of mechanical and electronic locks, indoor air quality solutions, air conditioning and heating systems, remote home management, portable security systems and advanced controls.

Ingersoll Rand' Security technologies provide products that ensure safe, productive and secure environments. This division's market leading products include floor and door closers, portable security devices, exit devices, biometric and electronic cabinet hardware, access control systems, steel locks, doors and frames, decorative hardware and locksets. Schlage even has products that provide attendance, personal and time scheduling systems.
